

The Evergreen State College

Evergreen Student Experience Survey 2011

Tacoma Campus

Dream Program

Students were asked if they could design their dream program, what it would look like including the number of credits, faculty composition, days and time, and a description of the subject matter.

If you were to design your dream program, what would it look like?

Tacoma sample

Credits	Faculty	Days & Time	Description of field(s) of study
12 credits	One instructor	Daytime	Human Services
12 credits	Team-taught	Daytime	Psychology, Human Services
12 credits	Team-taught	Daytime	Media, political economy, communications, journalism, web and graphic design
12 credits	Team-taught	Daytime	I don't understand this question. You already asked my fields of study! My dream is to combine all of these: history/political science/sociology/psychology/anthropology
12 credits	Team-taught	Daytime	Culture, Music, and Compassion
12 credits	Team-taught	Daytime and Evenings	writing integrated with environment and justice issues
12 credits	Team-taught	Daytime and Evenings	Human Services or Law
12 credits	Team-taught	Daytime and Evenings	Human Service, Social Service, Public Administration and Serving the Public and our community
12 credits	One instructor	Evenings	I like the way it is at Evergreen State College. It works perfectly for me.
12 credits	Team-taught	Evenings	Human Resource Management
12 credits	Team-taught	Evenings	art, culture, humanities, language, history
12 credits	Team-taught	Evenings and Weekends	the art of psychology in political correctness
12 credits	Team-taught	Evenings and Weekends	Culture, Sociology, Science, Media, Environmental issues, and justice issues
16 credits	One instructor	Daytime	I would call my class "Animation 2D to 3D and Beyond", This course takes a deep look at the process of animation throughout the years. Starting with earliest forms of animation to present day high tech computer animation. The students would learn how to reproduce each different kind of animation from 2D to computer animation. In this dream course the students would be able to visit Pixar, Disney, or DreamWorks for a week long (or longer) workshop with animation in the field working on/or in post production of an animated feature.
16 credits	One instructor	Daytime	Human Relations, Technical Skills
16 credits	One instructor	Daytime	Early Childhood education, with a focus on math.
16 credits	Team-taught	Daytime	Women and gender studies

16 credits	Team-taught	Daytime	Sociology, World Politics
16 credits	Team-taught	Daytime	Public administration, focusing in playing a role in the government.
16 credits	Team-taught	Daytime	Primarily development of understanding of economic policy, social justice and civil society, political science
16 credits	Team-taught	Daytime	Interdisciplinary is good, more art/tech classes would be nice, just to keep up with software changes and practical applications
16 credits	Team-taught	Daytime	I would take one class at a time with each quarter being only 8 weeks.
16 credits	Team-taught	Daytime	I have an interest in environmental issues and sustainability.
16 credits	Team-taught	Daytime	Health policy, politics (state & federal), anthropology, sociology
16 credits	Team-taught	Daytime	Education, Psychology, Critical Social Thought
16 credits	Team-taught	Daytime	education, political economy
16 credits	Team-taught	Daytime	Business Management.
16 credits	One instructor	Daytime and Evenings	Social Services
16 credits	One instructor	Daytime and Evenings	Human services, social services, behavioral addictions and behaviors, psychology and sociology
16 credits	Team-taught	Daytime and Evenings	Psychology
16 credits	Team-taught	Daytime and Evenings	Emergency Management
16 credits	Team-taught	Daytime and Evenings	All of the fields of studies connected to the economy, health, and our environment in general. The studies extended to the global effects as well.
16 credits	Team-taught	Daytime and Evenings	A lot more focused on the human subject and geared towards more specific topics and also geared towards masters programs. For instance our lyceum this year, all three quarters, the focus was on food and nutrition. Although this focus of study may have been helpful to a few students looking to move on to a biology degree, or environmental studies. It was useless to most of the students working towards a MPA, Med, MACP, MBA, etc.
16 credits	Team-taught	Evenings	Same as above
16 credits	Team-taught	Evenings	Psychology and creative writing
16 credits	Team-taught	Evenings	It would be nice if there was an option to take teaching endorsement classes sometime other than during the summer. For those of us who work, it is very difficult.
16 credits	Team-taught	Evenings	I am completing ILCs to earn upper division science credits. I have enjoyed my time at TESC but I would like to see more science classes. I would have enjoyed seeing Dr. Li teach a biology class that was just biology or molecular biology. Chemistry would be a good one to bring to TESC also. Tacoma campus needs more science classes.
16 credits	Team-taught	Evenings	elementary and secondary education
16 credits	Team-taught	Evenings	Community organizing/ organizational management
16 credits	Team-taught	Evenings	community and organizational development

16 credits	Team-taught	Evenings and Weekends	In question # 7 I find it restrictive that I can only take 20 credits. Why does evergreen have such a silly rule? I want to take more credits. I think that for those of us who want to bury ourselves we should get to. I would like to take 8 classes M T W Th both evening and day time. I am old and pressed for time. I also can handle it.
