Evergreen Student Experience Survey 2013

About this survey:

This survey is intended to gather information about students' college experiences. The results of this survey will be used to plan the curriculum and improve student services. The results also help us secure state and federal funding for programs that support students. The survey should take about 15 minutes to complete.

Participation in this survey is completely voluntary. Your consent to participate is implied when you begin to answer the survey questions; however, you may skip any questions you do not wish to answer and you can discontinue the survey at any time. Your participation will be confidential and unidentifiable in any public report. Information about this and other surveys conducted by the Office of Institutional Research and Assessment can be found at: www.evergreen.edu/institutionalresearch.

Unfortunately, this survey is not compatible with JAWS screen reading software. If you have trouble viewing the survey it can be administered by phone, or we can send you a printed copy. For this or any other questions about the survey please contact Scott Sebring, Research Associate, at (360) 867-6679 or sebring@evergreen.edu. The person to contact if you experience problems as a result of participating in this project is John McLain, Human Subjects Review administrator at The Evergreen State College, (360) 867-6045 or mclainj@evergreen.edu.

Please print your name and student ID below. **This sheet will be separated from your survey responses upon receipt of your survey.** This information is required to participate and will be used to enter you into a random drawing for a \$200 gift certificate at the Greener Store. To be eligible for the drawing, your survey must be received by June 30th, 2013. The student who is selected in the random drawing will be contacted at the completion of the survey administration and will have 30 days from the date of notification to claim the gift certificate.¹

Name: _____

Student ID#: _____

Thank you for your participation!

¹The odds of being selected in the drawing are better than 1 in 2,000 and depend on the number of students who participate in the survey. A total of 522 students out of a sample of 1,980 students responded in the 2011 administration of the survey. Therefore the odds in the last administration were 1 in 522.
