

Academic Division Grant Guidelines (1/4/07)

General Guidelines

1. All academic division grant proposals must be approved by the Provost. The Provost should be informed of impending proposals in the early stages of proposal development. John McLain (Academic Grants Manager) will facilitate review of proposals by the Provost and others who should be involved. As you begin to plan your proposal, please keep John informed; he will make sure notification goes out to the Provost and others involved in the grants approval process.
2. All proposals and budgets must go through Evergreen's internal approval process. The Grants & Contract Specialist manages this process, which involves many of the people listed below.
3. Completed proposals and budgets should be submitted to the Grants & Contract Specialist at least 7 working days in advance of formal submission deadlines. This seven-day lead time is necessary for final preparation and submission of proposals and for obtaining internal approvals. Some proposals require longer lead times. Call the Grants & Contract Specialist well in advance of submission deadlines to ask when she needs your materials.
