

**Core Theme 2: The Individual Engaged in Community**

**Objective 1: Participate collaboratively and responsibly in our diverse society (Maintain)**

Active and collaborative learning is a defining characteristic of Evergreen’s pedagogy, and the college will maintain its strength in this area. In terms of collaborative and responsible participation, fully 99 percent of transcripts in the most recent review showed evidence that students had met this expectation, and 92 percent had met the expectation of participation in our diverse society. Through over a decade of participation in the National Survey of Student Engagement (NSSE), Evergreen has set a high-water mark for the benchmark of Active and Collaborative Learning in reference to its peer groups, and mission fulfillment means continuing to exceed the performance of other public liberal arts colleges on the new revised Collaborative Learning engagement indicator that will be released by NSSE with its 2013 revised survey.
