

Core Theme 3: Environmental Stewardship and Social Justice

Objective 1: Environmentally Sustainable Institutional Operations (Improve)

Evergreen is committed to improvement in this objective. Carbon neutrality has been embraced as a long-term strategic goal of the college, and thus, efforts are underway to reduce greenhouse gas emissions. The college has also committed to achieving zero waste, which requires reduced consumption overall as well as the use of more recyclable, compostable and renewable resources in order to divert waste from landfills. Efforts are underway within campus dining, the student café and conference services to use local and organic foods. New processes and metrics will be developed and tracked on an annual basis to make more transparent the percent of local and organic foods used in campus dining services.

Indicator 1:

Greenhouse gas emissions/carbon footprint (metric tons of carbon dioxide equivalent; MTCDE)

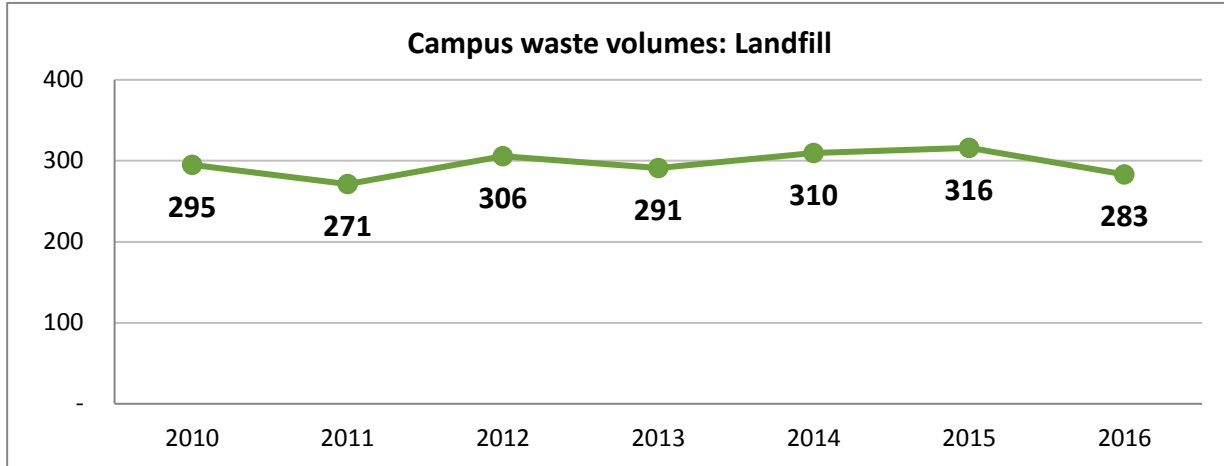

Source: Office of Sustainability

in MTCDE	FY 2010-11	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17
On-site sources	5,075	7,056	5,123	4,782	4,536	4,930	5,350
Indirect sources: Commuting, travel, waste	3,773	3,872	5,545	5,162	4,553	4,725	4,158
Purchased electricity	729	667	566	532	465	0	0
Total	9,577	11,595	11,234	10,476	9,554	9,655	9,508

Core Theme 3: Environmental Stewardship and Social Justice

Objective 1: Environmentally Sustainable Institutional Operations (Improve)

Indicator 2:

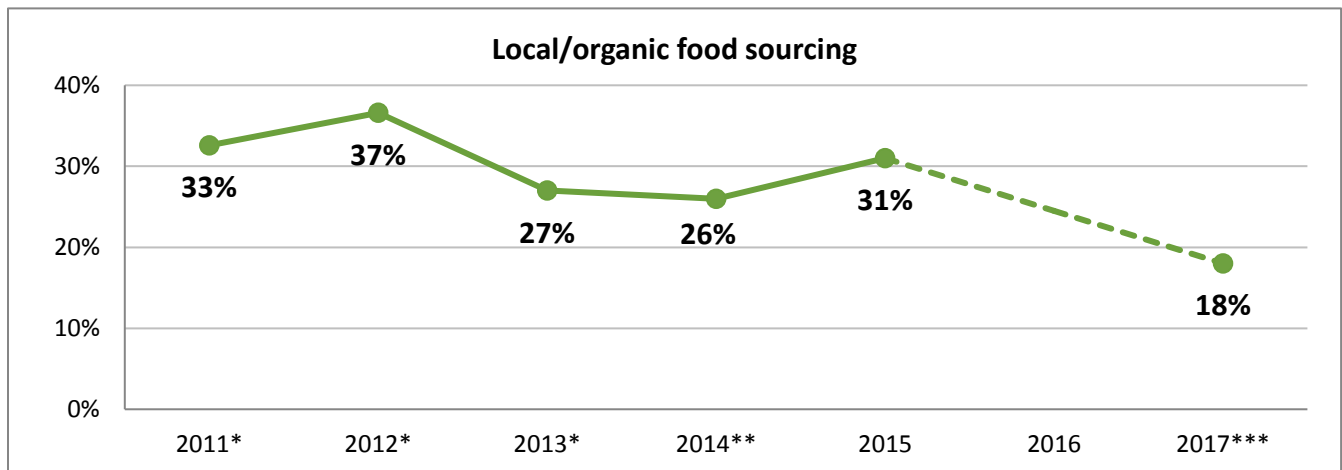

Campus waste volumes – landfill

Source: Facilities

(in tons)	2010	2011	2012	2013	2014	2015	2016
Landfill	295	271	306	291	310	316	283

Indicator 3:

% Local/organic food sourcing in dollars

Source: Aramark & RAD

Aramark

Aramark Food Expenditures Reporting	2010	2011*	2012*	2013*	2014**	2015	2016	2017***
Calendar Year	n/a	2010	2011	2012	2013	2014	2015	2016
% Local and/or organic food sources		33%	37%	27%	26%	31%		18%
