

Space Management Meeting
January 5, 2006

Attending- Kirk in place of Patti Z.

Recorder: Mondona Majidi

Paul: Spoke to Robyn in regards to rotunda for Language Lab - Possible. Space would be tight - Depends on the success of lab.

Overall feedback was for Language Lab - Will be installed in 2/3 of space. Points were made that the support has been for the Lab itself only, and that the Lab seems to hinge on the area chosen. John L. suggested the trail occur in a space that could potentially be perfect rather than one that could never be permanent.

Rotunda use in question as well:

Security

Restroom access

I year trial will determine Academic priority. Ideal area will be in the Library building after remodel. Currently no other areas are deemed available besides the lounge and rotunda.

Suggested that lab possibly begin in Fall 2006.

Key Point:

Space must be temporary; as space will be needed for surge- Must be clear on this with proponents.

Emphasis on social aspects of lounges.

Question was called by Paul regarding public lounge conversion and was passed. Len will circulate a contract that will be signed stipulating usage, etc.

SRI's going smoothly, will keep single PO contact with Shops/to PM- anticipated completion by June.

CAB leakage

1 single prioritized Capital List- next biennium
80 million given last biennium by the State

4 projects:

COM Renovation -8.7 million

CAB Renovation- 4.9 million

Longhouse Exp- 1.7 million

CRC Pre design- \$200,000

77 pts max:

COM- 50 pts

CAB – 28 pts

Longhouse- 38 pts

CRC pre- 26 pts

Time span- present through April 1st- Emphasize and approve 4.9 million

Revisit- next meeting- Capital priorities issues/ CAB vs. COM
