

End-of-Program Review 2007-08

Sustainability in Environmental Studies (ES) Programs

Did your program address sustainability? Sustainability can include:

- Living within the limits (for example, reducing consumption)
- Understanding the interconnections among economy, society, and environment
- Equitable distribution of resources and opportunities

	Extensively	Moderately	A little	Not at All	Percent of Programs Addressed Sustainability	Programs Addressed Sustainability (N)	Programs responded (N)
ES Programs	41.7%	8.3%	25.0%	25.0%	75.0%	9	12
All Programs	16.4%	24.1%	18.1%	41.4%	58.6%	68	116

ES Programs that include sustainability	Extent	Areas of sustainability studied in the program (e.g., environmental sustainability, social sustainability including social justice, economic sustainability, sustainable business practices, community sustainability, environmental ethics)
Ecological Agriculture	Extensively	Agricultural sustainability - Environmental, Social, and Economic constantly referred to
Introduction to Environmental Studies: Natural Resources, Oceans and Global Climate Change	Extensively	Environmental and economic concepts.
Practice of Sustainable Agriculture-2007	Extensively	Environmental, social and economic sustainability as well as business practices
Sustainable Practice	Extensively	The program focused on the history and development of the sustainability movement, critical perspectives on sustainability, personal sustainability practices (such as in transportation, consumption, mindfulness), community service, psychological approaches to making sustainable choices, sustainability theory, social justice and cross-cultural contexts, climate change, campus sustainability, ecological footprint, etc.
Temperate Rainforests	Extensively	Environmental Sustainability, Forestry
Landscape Processes	Moderately	Sustainability in the sense of understanding how earth processes affect human activities.
Ecology of Harmful Algal Blooms	A little	Environmental sustainability
Field Ecology	A little	Sustainable ecological management
Plant Ecology and Physiology	A little	Environmental and ecological sustainability
