I don't think that the RAs or RDs do enough to dis encourage this sort of behavior or stop it. This would really improve on-campus living.
1	0.94%	I was unhappy with the decision to no longer provide cable in the bedrooms. Cable in my bedroom would certainly improve my on-campus living experience.

		to-date cleaning supplies. I have been sicker this year than ever before, and I attest some of that to the fact that there is mold in our mod, and that the place can never be completely clean or free of dust. Also, RAD services is a great program, but students can't fix everything. It would be nice to have some trained professionals who could come in after the third or fourth time RAD has tried to fix things. Our stove burner, fan, and refrigerator have been malfunctioning since the beginning of the year. We've called RAD several times, they come and try to fix it, and the next day it is back to the way it was. This would not happen if I were paying for an apartment outside of Evergreen. The landlord is responsible for taking care of these things, and for the money we are paying, we should be getting more service.

1	0.94%	Programs on being a good roommate would be great, most of mine don't know how to do dishes.

Also, please please PLEASE try to place residents with people they WANT to be with, not ones that will only try to make your life hell. You need to alert people who are being placed in a Quiet dorm, that they are being put there, most of the new roommates we've had did not know this or want this. Come on guys.
1	0.94%	The addition of kitchens to the dorms.
1	0.94%	The addition of some sort of kitchen to the dorms would be very welcome.
1	0.94%	The Greenery could be improved, and kitchens added. Eating here is honestly a bad experience, but housing is fine.
1	0.94%	The grievance program is ineffective. And people are not well matched to their roommates. My first choice was substance free housing, and I wound up in no theme with a drug dealer for a roommate.
1	0.94%	The improvement of the campus internet connection.
1	0.94%	the internet has become tolerable but is still not very good
1	0.94%	The major factor is the cost. Apartments just outside of campus are half the price. I just really like the community and availability of living on campus but I wont be able to afford it in the future.
1	0.94%	The RD's are terrible people. So are many of the RA's you can't go to them for anything and they are hardly relatable for a college frosh.
1	0.94%	There are a very limited number of food options on the weekends. It'd be nice to see some things more available for students who are on campus over the weekend.
1	0.94%	Wkshps &/or discussions involving race and class. Not easy being the only person of color living with a bunch of white kids with virtually no comprehension of race &/or class. There seems to be a focus on gender/sexual orientation in on campus living. You have specific housing for said focus. It's easy & comfy for whites to not focus on race in on campus living. This is extremely unsafe & unfair because when conflict arises, it is often the person of color that is disciplined. I know many stories that support this claim. To conclude, DO YOUR JOB & DECONSTRUCT ISSUES INVOLVING RACE & CLASS IN ON CAMPUS LIVING. We'd all be deeply saddened if something unfortunate happened because of our fear and ignorance.

1	0.85%	Do not consolidate students. I cannot stress enough how terrible an impact this has on the community. The stress of being taken from your home, forced to move all possessions over one weekend while students are taking full time classes, having to meet new room mates, floor mates, and RAs and being separated from the floor community you already knew really takes a toll on everyone involved. I feel this is unacceptable.
1	0.85%	Do not make meal plans mandatory. If not, then base meal plan requirements on age and/or independence rather than class standing. It is obvious that if there is access to a kitchen, meal plans are not as cost efficient (or convenient) as preparing meals at home. Although the College may gain something financially from these requirements, they do not contribute to the well-being of all student residents.
1	0.85%	Do something about bullying, harassment and vandalism! And please make the food quality more varied with less sugar and cholesterol.

	1	0.85%	I would suggest being more clear about deadlines. I got stuck with a meal plan that I strongly dislike because I was a couple days late, and I also got stuck living on campus, when I really don't like living on campus, for the most part. It is nice to be close to friends.
	1	0.85%	I'd suggest that the people in the office do more to meet the requests of the residents.
	1	0.85%	I'm not sure if this is on the agenda or even possible, but a common space in each of the dorms where students could cook meals on a stove top or in an oven would be really nice and much appreciated.

	1	0.85%	Install kitchens in freshman dorms.
	1	0.85%	It would be nice to add a bit more color to the campus. Such as the outdoor stairwell going to the second floor of the cab building. I do not believe the sun nor the rain would cause much disrupt to the paint and it would add some more color around camus during the winter quarter. Another possible paint spot for art projects or class is underneath the walk way to the second story of cab. I strongly believe more color on building or inside would increase the welcoming feel.
	1	0.85%	It would be nice to have actual hot water and water pressure in the kitchen so that dishes can be cleaned. The water flow and temperature are well below the legal standards of the state health department. Can we say VIOLATION?

	1	0.85%	More hours. More healthy food options. Keep making smoothies.
	1	0.85%	More knowledge on the fixing of electrical.
	1	0.85%	More training for RAs--some of them don't even know what marijuana smells like (you'd think they would automatically know based on their attendance, but it's simply not the case). How can you expect them to enforce the rules when they can't even tell when the rules are being broken?
	1	0.85%	Move quiet housing AWAY from the designated smoking area.
	1	0.85%	Move the smoker pit farther from the dorms
	1	0.85%	Move the smoking area farther away from the apartments. Its horrible waking up to the noise of the people gathered there followed by the smell of smoke.

1	0.69%	I would never live on campus again. My roommates were a bad match and 6 is too many people living together with just one tiny fridge.	
1	0.69%	I would not live on campus in the future. I found it to be an extremely disagreeable living arrangement with poor quality housing and too much noise.

1	0.69%	My RA! I dont want to live in a place that I am under constant supervision to fallow all US laws. I find that the laws and regulations are ineffective and invasive when pertaining to sound, candles, weed and drinking, to list a few. I understand that regulations to make sure abuse is happening is necessary to some extent. The problem is that a rule for everyone, doesn't always work for everyone. Must everything be so black and white and structured? I feel that this strict enforcement is oppressive and overwhelming at times. As long as I continue to produce constantly improving, quality school work while not hurting myself and others, I should be allowed to govern myself. If everything must be regulated for the at risk students as well as the successful mature students, its probably best I look into off campus living.

Also: I can have dogs over, don't have to hide alcohol even though I am 21, my rent is a whole hell of a lot cheaper and the terms under which I live are a whole lot less ridiculous (no \$300 fee for breaking a contract, no random inspections or cleaning services which will charge money to my account, etc) I loved my place on campus, I was surrounded by amazing and brilliant people. I feel much better being off campus, though.

	1	0.69%	Where other people I know are living. What the cost is compared to off-campus living. Whether or not i had a job off campus.
	1	0.69%	Whether or not I could be in a remodeled space, my own room, if I was an RA, if I could pick my roommates.
	1	0.69%	Whether or not my parents are willing to pay for off campus housing.
