

RESIDENCE LIFE SURVEY DEMOGRAPHICS

2011 Student Affairs' Student Voice Survey Results

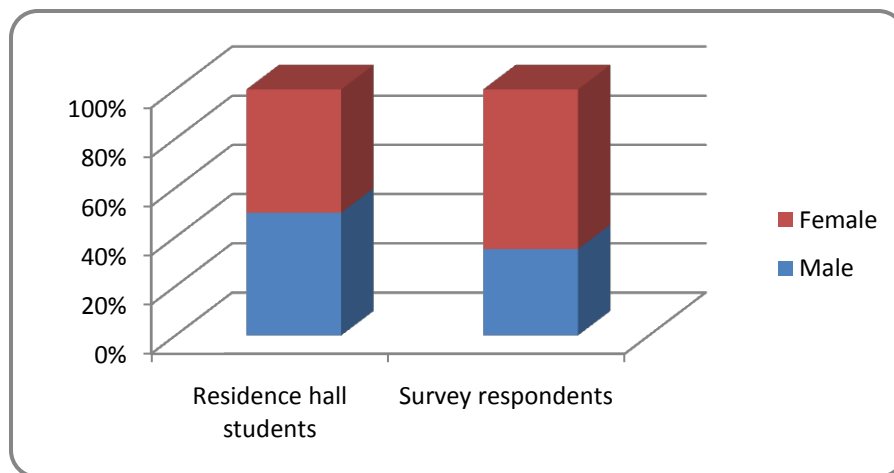

Student Voice Survey Report #9demographics

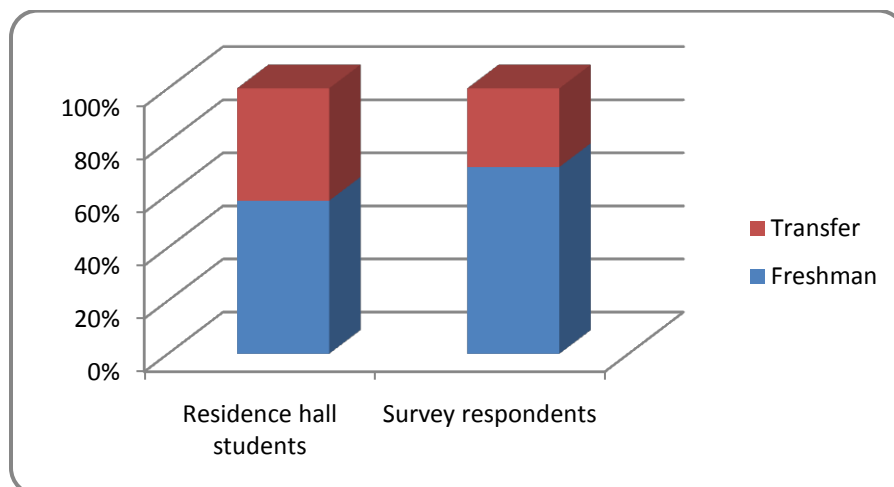

Student Affairs periodically conducts surveys about issues which impact students. In April 2011 Student Affairs conducted three surveys utilizing Student Voice, an entity which develops surveys in partnership with national. The surveys assess students' perceptions and experience, providing comparative data with national respondents. Participation was voluntary and all responses were completely confidential; the resulting data is reported only in the aggregate.

This report highlights some results from the **Residence Life** survey. The survey was sent to currently registered Evergreen students who lived in on-campus housing during the 2010-2011 academic year. Below are the primary demographic comparisons between all 906 students who were asked to participate in the survey and the 220 survey respondents.

Gender

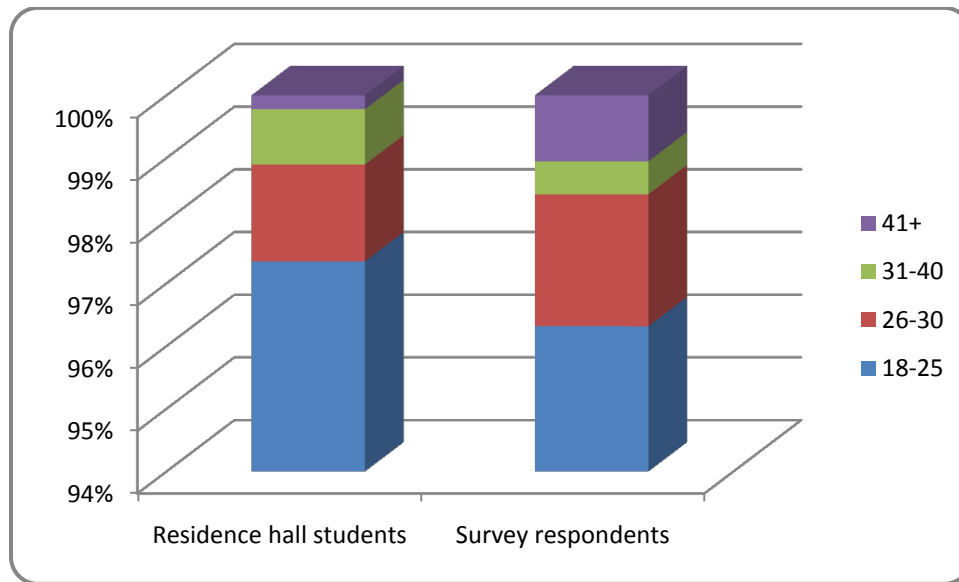

Class standing

For more information about this survey and other Student Voice surveys, the results of the surveys and the respondents' demographics please see the [Student Affairs' Assessment website](#).
