Q19. Are there any specific areas/locations on campus where you do not feel safe?

Count	Percent	
113	28.25%	Yes (please explain)
Count	Percent	
1	0.88%	after dark - F-lot, dorm area as I am aware of the rapes that have taken place on campus (despite the way they were buried)
1	0.88%	after dark in the unlit areas of campus and parking areas
1	0.88%	After dark, walking back to my room from F lot when there isn't a police officer parked in the lot.
1	0.88%	Anywhere there is a controlled bulletin board or group rooms accessed only by combination lock. (Answer based on the assumption psychic and spiritual presence just as valuable as the physical presence of vegetables and human morphs.)
1	0.88%	any of the wooded areas out of view of buildings, as much as I love the views, I've become more skiddish about these areas in recent years
1	0.88%	Anywhere I don't have cell phone service.
1	0.88%	Areas not properly illuminated.
1	0.88%	Around the dorms at night - there are lots of raccoons and homeless people. Walking home from night classes is really scary.
1	0.88%	Around the field or other unlit areas at night.
1	0.88%	As a woman, statistically speaking I am not safe. As a college aged person, I have a 1 in 4 chance of being sexually assaulted. Because I am queer, the chances are higher still. And statistically it will be by someone I know. So if there are lights or not, I am not safe from sexual assault. However, well lit areas will help keep me safe from falling down, or missing a step, or something like that. Addressing sexual assault prevention on campus would make me feel safer.
1	0.88%	As I recall there was a woman who was raped at gunpoint approximately 150 feet from my on-campus

		apartment at the time. This was ~2 hrs. after I had walked by said apartment.
1	0.88%	At night in the parking lot it can be intimidating because there isn't sufficient lighting.
1	0.88%	At night: Poorly lit wooded area between main campus and dorm areas (the corner between the CRC and around A-Dorm)
1	0.88%	Behind the Lab buildings, and on the roads 'behind' campus, in the general area of the Organic Farm. I enjoy walking at dusk and night, and these areas feel least safe at those times.
1	0.88%	Between construction site in CAB and Gym, under the breezeway there are no lights. Back behind the lab building near the ceramics and kiln area there are no lights.
1	0.88%	Between the CRC and A building on the curvy path, it's very dark at night.
1	0.88%	Between the lab buildings and the arts annex
1	0.88%	Dark areas of parking lot
1	0.88%	Dark areas with bad lighting and the bus waiting area after dark
1	0.88%	Dark path between the art annex and c lot at night...it often feels isolated and has tons of dark alcoves. Why are there no lights here?!
1	0.88%	Due to the recent vandalism on cars with Police bumper stickers, I feel somewhat unsafe in the parking lots at night. Also, in my own dorm I had a roommate who was an alcoholic and a nazi and it was incredibly difficult to get her out of the dorm.
1	0.88%	Durning night, on the unlighted area/trail between the sem 2 buildings that leads to the parking lot.
1	0.88%	Either of the parking lots as they get further from the campus and closer to the woods.
1	0.88%	Hall outside the library and area around outside parking office
1	0.88%	I do not feel safe walking to the parking lot behind the communications building from seminar 2 because it's very dark as well as anywhere near the fields at night.
1	0.88%	I don't feel comfortable in the bathrooms that are at the end of the halls of the computer lab classrooms-located down stairs from the library-where the food area is.
1	0.88%	I don't feel completely unsafe, but when walking down any of the paths through wooded areas after dark I feel vulnerable.
1	0.88%	I don't feel particularly safe leaving my bike on campus, even with a lock.
1	0.88%	I feel somewhat safe on the Tacoma campus because we have a security guard there. However, in the parking lot, I feel that students need to remain vigilant because I have seen vagrants and questionable people walking through.
1	0.88%	I feel uncomfortable in the bike shop sometimes, and feel like because I'm read as a woman, I get bothered often about how I'm fixing my bike.
1	0.88%	I feel unsafe, whenever I am put into a situation which is expected to be unsafe, either by an individual, or by an administration. I do not feel safe that The Evergreen State College spends our tuition money to drive expensive wasteful vehicles around (filled with individuals trying to categorize the campus into their perception of harm (when the students have the capacity to govern themselves, without the bourgeois claim that people must not govern themselves.
1	0.88%	I go to school Evenings and Weekends, the lack of police services in the parking lots at 9 or 10 pm makes me nervous. There are times where other classes get out at the same time so there are other people, but there are also a lot of times where I am out there alone. I would feel more comfortable having more lighting and seeing security driving around.
1	0.88%	I have a mobility challenge & am on campus usually in the evenings until 10pm. I sometimes feel unsafe, but I know I could call security for an escorted walk, but I usually just want to go home asap as I have an hour drive home. Almost all the students rush to their cars while I slowly move toward my car so I'm generally alone or walking with a student colleague who is visually challenged. Then we both feel a little intimidated by the dark areas of the campus & the parking lot.
1	0.88%	I know that a lot of sexual assault and harassment happens on campus and off with evergreen students, I would like to see a more than once a year "Red zone" talk featuring the police to address this. For our campus, and our community to become a safer place for all its inhabitants, work is needed to change the system from which violence arises. Since most of this violence is committed by male-socialized folks in the context of a long, intense history of sexism and masculinity defined by patriarchy, the focus is primarily on changing a system of oppression, with less emphasis on bringing in "protectors" to deal with symptoms of our system. Welcome action can include, but is not limited to, safer sex and consent workshops for all students, awareness raising sessions about Sexual Assault, educating folks (men especially) on how they can help prevent sexual assault using the 'bystanders approach' etc. PLEASE SPEND MY MONEY CHANGING THE SYSTEM, NOT BUYING EXPENSIVE BAND AIDS. Thank you for your time. Sincerely,
1	0.88%	I understand the need to conserve energy, but - as a female - walking to my car after a night class is very unsettling. There large areas of the parking lots that receive little to no light from the parking

		lamps. This makes me feel very insecure when walking to my car alone, usually I try to walk with others from my class but this is not always how it works out. I should not need to walk with a group of other students in order to feel safe on my campus.
1	0.88%	I wonder about the parking lots, and the wooded areas surrounding them.
1	0.88%	If it is late, walking on nearby roads feels like cars might not see me
1	0.88%	In Sem 2 building at night. Doors are locked but people are still in there, it's hard to know how to get to other areas, including back to the classroom if I use the bathroom on another floor (because of locked doors). There aren't many people and it a little bit creepy, or abandoned. I have had classes at night many times in Sem 2.
1	0.88%	In the middle of the woods, day or night, alone, off the path.
1	0.88%	In the woods at night.
1	0.88%	In the woods near campus building, or sometimes I feel unsafe taking the trail to the Organic Farmhouse.
1	0.88%	Lecture halls 1-5; there is not really any place to duck for cover in most of the rooms if there is an earthquake.
1	0.88%	Long dark pathways. Tree covered alley ways.
1	0.88%	Maybe on the trails, like from the parking lot to the bookstore.
1	0.88%	MOD Laundry Room, because of poor lighting.
1	0.88%	Mostly the parking lots, as that is where a majority of the theft and crime happens late at night.
1	0.88%	near mods, field, dorm, parking lots after dark--anywhere without lots of lighting (which is most of the campus)
1	0.88%	Near Police Services, where the police are.
1	0.88%	Only at night would I avoid being behind buildings or other dark secluded places such as the nooks and crannies of TESC...but, I practice the same safety precautions anywhere I go.
1	0.88%	parking lot
2	1.77%	Parking lot after dark
1	0.88%	Parking lot after dark.
1	0.88%	Parking lot and bus stop.
1	0.88%	Parking lot late at night.
1	0.88%	parking lot when dark
1	0.88%	parking lots after dark--when a class gets out, it feels just fine because there are people around. But, if you're coming out at an off time, you might be the only person around. That feels unsafe.
1	0.88%	Path from SEM2 to parking lots
1	0.88%	PLEASE light the campus better at night. It has deterred me from taking night classes.
1	0.88%	police services makes me feel very unsafe. Every time I see one of those trigger happy cops I worry that if I show any sign of fear they'll lock me up
1	0.88%	Poorly lighted stairwells inside seminar building at night.
1	0.88%	Sem II has bad lighting in places on the walkways, some people may not feel safe.
1	0.88%	Sometimes going out in the woods there are weird people...and all the camps/tents/treehouses I've seen are a little disconcerting, as are all the stories I hear about people growing weed and doing drugs out there.
1	0.88%	sometimes inthe woods at night because there are lots of crazy people who are not students in there
1	0.88%	Tacoma campus parking lot. Security does not circulate outside building.
1	0.88%	The "smoker's pit" behind the dorms.
1	0.88%	The 41 bus stop near the Mods, at night. There are no streetlights around at all, so it is very dark, furthermore forest surrounds both sides of the street.
1	0.88%	The bus stops for the Mods area are not lit most of the time, and the road between the mods and the soup almost always has no street lights.
1	0.88%	The dark patch of trees on the path between the stairs up to the CRC & A dorm.
1	0.88%	The dark pathway between SEMII and the parking lots
1	0.88%	The forest can be somewhat scary at times, if that is considered on campus.
1	0.88%	The forest pathway that leads from D wing of SEM II to Parking Lot C during the night. There is absolutely no lighting and it is a very heavily wooded area.
1	0.88%	The parking lots are dark and seem unmonitored at night. Also, many of the bathrooms are far from travelled common areas and I feel very vulnerable there.
1	0.88%	The parking lots at night are a bit scary because they are not very well lit and they are very large and wooded.

Q19. Are there any specific areas/locations on campus where you do not feel safe?

Count	Percent	
1	0.88%	The path from Sem II, building C & D, to parking lot B. There is no light on that path. I always walk with someone else and use a flashlight. A couple of streetlights would be better!
1	0.88%	the paths in the woods.
1	0.88%	The pathway to the parking lot next to the Com building when it's dark, as well as the dirt path to the parking lot by Sem II. Both seem fine during the day, but are a little dim and dark at night.
1	0.88%	the police station
1	0.88%	The Police Station. I am afraid of police harassment.
1	0.88%	The presence of police on campus with guns makes me feel unsafe. The campus' lack of response or insufficient response to rape makes me feel unsafe. Dark areas with no street lights make me feel unsafe; and we have many dark areas on campus.
1	0.88%	The short cut trails through woodsy areas
1	0.88%	The sidewalks around housing. Unless there's a sizable group present, I don't trust that I won't be assaulted by certain police officers in those areas.
1	0.88%	The trail leading from Seminar II to the parking lot is questionable in the evening/dark. It's not well lit and there is a lot of brush and trees etc a long it where someone could lurk.
1	0.88%	The woods on the way on the parking lot are not very well illuminated.
1	0.88%	There are still areas around the school and in the parking lot that are not well lit or easy to hide during evening in as a guy I usually don't worry but when my wife is by herself it is a concern
1	0.88%	There is a gravel path leading to the parking lot, C? It is from the Sem 2 buildings straight back. It is not lit at night and I have worried of tripping. The path is very hard to see. It needs some lighting in order for the path to at least be seen.
1	0.88%	There is a path that leads from the campus to parking lot that is set in the perfect spot. It is near Sem 2 building B I believe. It isn't that I DON'T feel safe, just slightly uncomfortable walking it at night. I love the path and won't stop using it but I wish that it was a little better lit at night
1	0.88%	There is one utility path between SEM II and the CRC parking area that is very dark at night, and coming out of the brightly lit classrooms in SEM II can cause some night blindness as your eyes adjust to the dark. The utility path is very dark and has woods on both sides, so it is possible for someone to hide there in ambush. Usually there are others around to walk that way, so I do not get as concerned, but when it is after 10pm and very dark, I can get a little frightened. I guess the rule should be not to take that path.
1	0.88%	Trails from parking lot to the rec center
1	0.88%	Tree lined paths at night
1	0.88%	Unless policies are enforced and students not allowed to take over areas or building students should not feel safe.
1	0.88%	utility road between parking lot and sem 11 walk at night, however I like the wildness of the walk. Maybe a few (student)sculptures with lights shining on them to help light the way.
1	0.88%	Walking alone at night near the curve if the pathway between the CRC and the Freshman Dorms, as well as the laundry room in the Freshman Dorms late at night as well as by the little patch of trees by the Soup.
1	0.88%	Walking around at night where places are not well lit
1	0.88%	walking around side of art building to parking lot B at night. Can't see around corners, feels a little sketchy.
1	0.88%	Walking around the campus or in the parking lot at night.
1	0.88%	walking between the building where the lights are not very bright
1	0.88%	Walking down Overhulse (which is very poorly lit) going toward the glen and on to campus is truly the most sketched out experience of my three years here at Evergreen. There are times on campus when I've felt uneasy and definitely crept out walking alone at night but I've never felt any danger. I usually travel with friends around campus and I try to keep my solitary trekking to a minimum. Although I understand there are many stipulations and legal issues at hand but I do think more could be done to protect the students on campus such as realizing the number of transients that happen to wander onto campus and harass students and doing something to limit their abundance. Also educating students about allowing strangers into their homes. Also making sure RAD services understands what is and what isn't a real emergency.
1	0.88%	walking from the bus stop to the car lot through the trees.
1	0.88%	Walking from the Red Square to B or C lot. The path feels like one could easily be ambushed.
1	0.88%	Walking in the middle of the road wearing black clothing in the middle of the night. Seriously though, safety is a non-issue for me.
1	0.88%	Walking next to Communications Lab Bldg. at night going to "C" Lot
1	0.88%	Walking on any of the trails alone; I would never do this at night, especially because peers have

		cautioned me against it.
1	0.88%	Walking to and from my car at night makes me feel very uncomfortable.
1	0.88%	Walking to the Mods from other buildings at night.
1	0.88%	Walking to the parking lot after evening classes have let out. The lighting is very poor in the parking areas.
1	0.88%	walking to the parking lots, the surrounding forest makes it hard to see whats around.
1	0.88%	When I arrive to attend evening classes, parking is full from day classes which means I have to park at the furthest point within the parking lot. When I get out of class it is quite dark in the parking lot and at times I feel a bit nervous walking back to my car.
1	0.88%	When the Evergreen Police Department is nearby. They have "accidentally" tazed students in the past and the seem fairly unaccountable. I trust any random student more than them.
1	0.88%	When walking to the parking lots from Sem II after dark. None of the paths from the buildings to the parking lots are lit well.
1	0.88%	Wooded areas are always a concern
1	0.88%	Yes, walking from the parking lot to any buildings. The lights are dim and there aren't adequate emergency buttons.
